

ISABELLE LOPEZ

5164681460 | hopenlopez127@gmail.com | Electrical Engineering | <https://www.linkedin.com/in/lopez-isabelle/>

EDUCATION

University of California, Los Angeles (UCLA) Los Angeles, CA *Coursework towards Bachelor's of Science in Electrical Engineering September 2019 – June 2023, continuing again January 2027*

El Camino College Los Angeles, CA *Major of Electrical Engineering February 2025 - December 2025*

SKILLS

Computer-Aided Design: Printed Circuit Board (PCB) design with EAGLE and 3D modeling in SOLIDWORKS

Programming Languages: C++, Python, MATLAB, HTML, CSS, and Javascript

Certifications: IPC-A-610

WORK EXPERIENCE

Motorola Solutions - Silvus Technologies

Los Angeles, CA

Electronics Technician II

December 2025 – Present

- Tests sensitive electronic assemblies, digital boards, and printed circuit boards of MN-MIMO radios
- Troubleshoots hardware and software aspects of both testing equipment and product itself
- Reports noticed patterns, statistics, and team feedback daily

Salt & Straw

Los Angeles, CA

Scooper

April 2024 - December 2025

- Upheld high standards of customer service during high-volume, fast-paced operations
- Attentively interacted with guests throughout their visit with patience and positivity, ensuring a wholly engaging and memorable experience.
- Adhered to shop, food quality, and safety standards including dishwashing, preparing products according to recipes, cleaning floors and sidewalks, walls, bathrooms, and freezers, maintaining organization, and putting away delivered orders

Environment, Health & Safety at UCLA

Los Angeles, CA

COVID-19 Wastewater Research Technician

February 2023 - July 2023

- Collected wastewater samples to be tested for COVID-19 from up to 50 sites on UCLA campus
- Operated and conducted troubleshooting on up to 25 sampling machines on a given day
- Handled and prepped biohazardous materials while acting in accordance with 100% of necessary safety procedures

Xela Robotics

Tokyo, Japan

Embedded Software & Electrical Engineering Intern

June 2021 - August 2021

- Designed and optimized printed circuit boards for a 7 x 5 tactile sensors design to meet client size and sensor needs
- Improved circuit board design in EAGLE by reducing board size from 26 x 27 mm to 19 x 14 mm
- Investigated 11 internationally produced modules and systems to be used for Bluetooth communications integration
- Negotiated with 8 PCB manufacturers from China, Taiwan, and Ireland to ensure product specifications are met

The Brain Research Institute at UCLA

Los Angeles, CA

Work-Study Student

February 2021 - August 2021

- Researched and cross-referenced information on the 271 BRI members for website
- Updated website using WordPress while scheduling up to 22 neuroscience events per month
- Managed up to 150 participants during Joint Seminars in Neurosciences events

PROJECTS

Bionic Hand

Los Angeles, CA

Engineering 96A Student at UCLA

September 2022 - December 2022 •

Designed and built a bionic hand meeting design criteria of being able to stack 12 wooden blocks, sort 10 blocks of varying shapes, as well as pick up 30 grapes without causing bruising

ORGANIZATIONS

Pilipinos in Engineering and Sciences (PIES) - President '22-'23, EVP '21-'22

- Lead a team of 9 people to facilitate events, workshops, and socials for a general membership of up to 40 students

Institute of Electrical and Electronics Engineers (IEEE) - Project Lead '23-'24

- Developed a small car able to navigate through a maze using computer vision and machine learning
